Ahemed Sakeer Hussain

Data Science & Machine Learning Engineer
ahemed2h6z@gmail.com +971-585800864 Portfolio |GitHub |LinkedIn

Professional Summary

Recent Computer Science graduate specializing in Data Science with hands-on experience building AI-powered analytics platforms, machine learning pipelines, and business intelligence solutions. Proficient in Python, SQL, Power BI, and Scikit-learn, seeking opportunities in Data Science, Machine Learning, and AI Engineering.

Education

B.Tech in Computer Science and Engineering (Data Science) 2022 – 2026
SCMS School of Engineering and Technology CGPA: 7.08
Higher Secondary Education 2020 – 2022
Sree Gokulam Public School XII: 64% X: 74%

Technical Skills

Programming	Python, SQL, Django, FastAPI
Data Analytics	Pandas, NumPy, Data Cleaning, EDA, Statistical Analysis, Feature Engineering
Machine Learning	Scikit-learn, Regression, Classification, Model Evaluation, SHAP
Visualization	Power BI, Tableau, Plotly, Matplotlib, Seaborn
Tools	Git, GitHub, Streamlit, VS Code, Jupyter Notebook, Excel

Projects

AIBUS – AI-powered Business Utility Suite
Python, Streamlit, Pandas, Plotly, Scikit-learn, Prophet
- Developed an AI-powered Business Intelligence platform integrating forecasting, anomaly detection, customer segmentation, AI-generated insights, and interactive dashboards.
- Engineered a modular analytics pipeline supporting datasets with over **1M+ records**, featuring automated preprocessing, schema detection, feature engineering, and exportable PDF reports.

DemandIQ
Python, Streamlit, Pandas, Plotly, Scikit-learn, XGBoost, Random Forest
- Developed a production-style demand forecasting platform processing over **1M+ retail records**, achieving **94.9% R^2** using Random Forest.
- Engineered an end-to-end ML pipeline integrating automated preprocessing, feature engineering, model selection, forecasting, and interactive KPI dashboards.

ANDRO-LLM
Flutter, C++, Python
- Developed the EMWQ-R quantization technique reducing the LLaMA 3.2 3B model size by **70.8%** with less than **6%** quality degradation.
- Built a 5-layer Android inference architecture using Flutter, JNI, and optimized C++ delivering **4.2 tokens/sec** on Snapdragon 695 devices.

Internships

Data Analyst Intern, Elevate Labs Aug 2025 – Sep 2025
- Built Power BI dashboards and analyzed business datasets using Python, SQL, and Pandas to support business reporting.

Data Analyst Intern, Paleri Business Info Solutions LLP Feb 2025 – Mar 2025
- Processed, transformed, and visualized datasets using Python, Excel, SQL, and Power BI for business reporting.

Data Science Intern, Academor Apr 2023 – May 2023
- Performed exploratory data analysis, preprocessing, feature engineering, and developed machine learning models using Scikit-learn.

Certifications

- Python for Data Science – Infosys Springboard
- Data Analysis with Pandas and Python – Infosys Springboard
